PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building and deploying modern web applications using React and Next.js. Boosted user engagement by 35% through responsive UI improvements and fast-loading pages.

Skilled in secure authentication with JWT, API development with Express and MongoDB, and cloud deployments via Vercel, Render, and AWS S3.

Proficient in technical SEO and UI/UX design using Figma and Adobe tools, consistently delivering clean, conversion-friendly interfaces.

Currently expanding expertise in **networking** and **cybersecurity**, including **MFA**, secure auth, **TCP/IP**, **DNS**, and **risk scoring**, to build more secure and reliable web platforms.

EXPERIENCE

GLOBAL TALENT RESOURCES (Aug 2024 – Present) Dubai-UAE

Web Developer / Full Stack Engineer

- **Frontend Development:** Built responsive and reusable UI components using **React** and **Tailwind CSS**, ensuring brand consistency and mobile optimization.
- **Backend Development:** Developed scalable REST APIs using **Node.js** and **Express** to manage content, assets, and user roles.
- **Authentication & Security:** Implemented secure JWT-based authentication and role-based access control for admin and client users.
- **Database Management:** Worked with both NoSQL (MongoDB) and SQL systems to handle structured data, enabling efficient CRUD operations across user, asset, and configuration modules based on project requirements.
- **Deployment & CI/CD:** Deployed applications using Vercel (frontend) and Render (backend) with GitHub-based CI/CD for streamlined updates

PROJECTS

VOICE (GRIVIENCE MANAGEMENT PLATFORM)

Mern Stack / [Deployed Project Link](#)

- **MERN Stack:** Built a real-time grievance platform with user complaint tracking and management.
- **Auth:** Integrated Google OAuth for secure login and session-based access control.
- **Storage:** Used AWS S3 for fast, scalable complaint image uploads and retrieval.
- **Frontend:** Developed a mobile-friendly UI with React and Tailwind CSS.
- **APIs & Deployment:** Built Node.js/Express APIs and deployed via Vercel and Render with CI/CD.

SKILLO (LEARNING JOURNEY SHARING PLATFORM)

Mern Stack / [Deployed Project Link](#)

- **MERN Stack:** Built a platform for users to share skills, learning journeys, and recommended resources.
- **Auth:** Implemented JWT-based login and signup with protected routes and session management.
- **Database:** Used MongoDB to store user profiles, skill posts, and engagement data.
- **Frontend:** Created a responsive and clean UI with React and Tailwind CSS.

SKILLS

Web Development

- MERN Stack: React.js, Next.js, Node.js, Express.js, MongoDB
- Frontend: Tailwind CSS, Responsive Design, HTML5, CSS3, JavaScript
- Auth & APIs: JWT, Google OAuth, REST APIs, Session Management
- Cloud & DevOps: AWS S3, Vercel, Render, Git, GitHub, CI/CD
- Cybersecurity & Networking: MFA, Secure Auth, TCP/IP, DNS
- SEO & Automation: Technical SEO, Google App Scripts, Schema Tags
- Design & UI: Figma, Photoshop, Illustrator, Visual Branding

ACHIEVEMENTS & CERTIFICATIONS

- 3x Hackathon Winner
- Full Stack - Udemy
- ISC2 CC - daab4d0f-c1dc-469e-b1f8-927f06b3f09c
- MCSE & CCNA - Zoom Technologie
-

EDUCATION

BACHELOR OF ENGINEERING – COMPUTER SCIENCE

Muffakhamjah College of Engineering & Technology
